

DQS Inc. ISO 45001 Courses

With the revisions from OHS 18001 to ISO 45001 standards, DQS Inc. is ready to prepare our customers for the audits as best as we can. We have developed the below courses to satisfy our clients' requirements. After completing any of these modules, a **certificate of completion** of the course will be awarded.

Course Title	Course Description	Details
Requirements and Application of ISO 45001 Occupational Health & Safety Management Systems	<p>In this course, you will learn to identify the structure and requirements of an effective OH&S management system and gain an understanding of the ISO 45001 key terms, definitions and the ISO standardized high level structure. You'll learn to interpret and apply the key concepts and principles of the standard to existing processes within your organization.</p> <p>Learning Objectives:</p> <ul style="list-style-type: none"> • Identify the key requirements and benefits of ISO 45001 • Understand the terminology of OH&S management systems • Explore the intent and interpretation of the individual clauses of ISO 45001 • Identify and manage occupational health and safety risks • Take steps to provide a safe and healthy workplace • Gain a basic understanding of how an OH&S management system can be integrated into existing quality and/or environmental management systems • Identify what needs to be revised in your current OH&S management system • Develop a personal action plan <p>Prerequisites:</p> <p>None, however basic knowledge of a management system and knowledge of the Annex SL is suggested.</p>	<p><u>Duration:</u> 2 days</p> <p><u>Delivery Method:</u> in person at organization or centralized location</p> <p><u>Target Audience:</u> Managers and other personnel involved in the planning, implementing, maintaining, supervising and/or auditing of an occupational, health and safety management system.</p> <p><u>Course Style:</u> Course content delivery is enhanced with class discussions, plus individual and group activities designed to result in a deeper understanding of the material and a greater impact on job performance through practical application.</p>
